Technical regulation for 500 + 1 kolo race

Stages I – IV consist of 100 laps each, the final stage (V) has 100 + 1 laps.

Points are awarded in every 5th lap – 5, 3, 2, 1 points. Every 50th and 100th laps are awarded with double points. In stages I – IV, lap gained has bigger value than points gained. All riders who score a lap or points in given stage will get omnium points (see the Omnium points table). Furthermore, if more than 20 riders score a lap or points in a given stage, each of them will get additional 1 omnium point. Total of omnium points after the stage IV will set the rankings before the final stage.

In the final fifth stage, the points will be added omnium points achieved in stages I – IV. 50th, 100th and 101st lap is awarded with double points. Lap gained is awarded with 20 points, lap lost with -20 points. The overall winner is the rider with highest score of total points: omnium points from stages I-IV and actual points from stage V.

As of the stage II, the leading rider will wear the yellow jersey for the whole stage. Before the stage, the yellow jersey will be presented to the actual leader by the director of the race or by the main sponsor of the race.

Thus, wearing a yellow jersey is prohibited for other riders.
