BRNO (START TOWN & FINISH TOWN)

Dear Ladies and Gentlemen,
Dear athletes,

Although there is a saying that every Czech is a musician, I rather think that every Czech is a cyclist. Everyday I can see hundreds of enthusiasts rushing to work or for a trip on their bikes – which is helpful not only for their health, but also for the environment. Therefore, I am very glad that the prestigious VISEGRAD4 GP Czech Republic race takes place in our city – a city that supports cycling more and more.

It is a great pleasure for me that Brno is the venue of this event that is increasingly attractive for both fans and media. No wonder it is one of the most interesting events of the season for the supporters of our cycling when the local elite will meet the top international competitors. And who knows – maybe the race will inspire many of us to take their bikes out after the winter and set out into the countryside to ride their first dozen kilometres.

I wish much success and strength in their legs to all the athletes, thrilling races to the audience, and a pleasant stay in the Moravian metropolis that opens its heart to everyone coming in peace to all of you.

Markéta Vaňková
Mayor of Brno

South Moravian Region
(THE REGION WHERE THE RACE IS TAKING PLACE)

Dear top sports fans,

The history of our road cycling has been created by many prominent names and some of them come from the South Moravia. Let me mention, for example, the golden Olympian Jiří Daler or the winner of the Course de la Paix, Jan Smolík. More than a hundred riders from dozens of European countries took part in the first edition, in which the organizers from Favorit Brno renewed the tradition of bicycle racing between Brno and Mikulov after 45 years.

This year, the maximum allowed number of 176 will hit the track. There will also be regular participants of Giro, Vuelta or Tour de France. We finally got a large one-time professional race in the Czech Republic – and it takes place in the South Moravia.

I thank the organizers of the race for the ability to attract top cyclists. At the same time, I wish the starters every success and the spectators exciting sporting event.

I really look forward to seeing all of you in the finish line of the second edition in the surroundings of Špilberk Castle!

Jan Grolich
Governor of the South Moravian Region

The beauty of vineyards, the joy of folklore and the mystery of caves. All this is South Moravia – a hospitable region of many faces and opportunities for sightseeing. A comfortable place to live, promising for studies and careers. The region, sometimes dubbed as Silicon Valley, stands out especially thanks to innovation.

Regional Office is responsible for the development of the South Moravian Region, including the education, culture and transport. We are a region full of innovation, top developers and IT companies. Among our priorities belong science and research, we have established the South Moravian Innovation Centre (JIC), an organisation that helps to create one of the most innovative business ecosystems in Central Europe. The gaming and space industries have a place in our region too, as well as electron microscopy.

Monuments of the South Moravian Region are witnesses of a unique history. Two of them, Brno's Villa Tugendhat and the Lednice-Valtice area, are proud to be on the UNESCO list. The region is also famous for its extensive complexes of stalactite caves in the Moravian Karst, protected landscape area, archaeological sites and the endless vineyards. Our wines win prestigious international competitions.

Names such as Leoš Janáček, Alfons Mucha, Milan Kundera or Johann Gregor Mendel are strongly associated with our region. In connection with the 200th anniversary of the birth of the last of these, J.G. Mendel, we are involved in preparing the celebrations and we are developing a special mobile application. Visitors can play our geolocation game called Mr. Mendel's Code in the streets of Brno.
